**Venue:** Singleton Youth Venue (7 Pitt St Singleton NSW 2330)  
**Contact if required:** Philippa Vale 02 9383 2115

*Good morning I am Trish Sellars, owner and Managing Director of [REDACTED] Cleaning and Support Services.*

*Our business is locally owned; based in Singleton and has been servicing and supporting coal mining operations for 26 years.*

*Wambo Coal has been a Client since 1990 and provided not only long term employment onsite for a number of our individuals but stability to our Management team.*

*We provide a range of services including cleaning, hygiene and contaminated waste removal, pest control, supply products and support site activities*

*For example at the moment we are co-ordinating new blinds and floor coverings in onsite building*

*These are being supplied and fitted by our Singleton preferred Supplier - All these types of services have been of significant value to Wambo Coal, our business and that of our suppliers.*

*We currently support a workforce of 180 employees who depend greatly on the service requirements of Wambo Coal and other coal mining operations.*

>

*Without the expansion and continued operation of businesses such as Wambo Coal, our organisation would be greatly affected; jeopardizing important local employment and small business opportunities alike.*

*I am proud to be a part of a local service industry that underpins the significant economic contribution that coal mining makes to the Hunter Valley.*

*As a result, I am here today to express our support for the ongoing operation of the Wambo Coal underground.*
