

In the state of New South Wales, the power to arrest is granted to anyone who is not a police officer by section 100 of the Law Enforcement (Powers and Responsibilities) Act 2002. Under this Act, a person may, without a warrant, arrest another person if: that person is in the act of committing an offence under any Act or statutory instrument.

So "We The People" are going to collectively citizens arrest the Planning Assessment Commission here today. We are not going to be offensive, we are not going to cause any harm to their wellbeing, we are not going to touch them or give them any reason to fear for their safety. This is a peaceful direct action.

However, we are going to arrest them.

By so doing the onus will be, not on us proving that they are guilty of this offence, but on them proving to us that they are not !

So I would now like to ask all of you whom are willing, to stand with us and support us in this action. The more of you that stand with us the more powerful this becomes. The Government can do nothing to you for participating in this action providing you honour and respect our code of conduct.

I now humbly ask those of you that realize the truth of what I share to now stand and join us. Once this action is complete, if one of you would be kind enough to call the NSW Police, and to notify them of this action immediately and to humbly request their presence.

"We The People" of Australia in The State Of NSW , solemnly, and with all due respect, do hereby publicly arrest the NSW State Government Planning Assessment Commission in accordance with our rights specified in section 100 of The NSW Law Enforcement And Powers And Responsibilities Act.

The NSW Planning Assessment Commission and The Governments, both State and Federal, (that have condoned them being here today), are in direct breach of an Act or Statutory Instrument, namely the Australian Constitution Act Sections 100 and sections 44 parts 1 and part 5.

We ask that you (The PAC) remain seated and that you wait patiently until the NSW Police arrive so our collective citizens arrest can be acknowledged and recorded. Once the Police arrive and they acknowledge and record this public arrest, they will determine the appropriate action and decide what to do with you. We have exercised our right as "We The People" and the onus will now be on you "The NSW Planning And Assessment Commission" and whose whom sent you here today, to prove in the High Court of Australia, that you are not guilty of these constitutional offences.

12

My name is Paul Robert Burton and i am the President of Our Land Our Water Our Future Incorporated (OLOWOF Inc) (our responsibility statement as part of our constitution)

Our Land Our Water Our Future is a not for profit Environmental group based on the Central Coast of NSW whose Primary Mission is to Protect Our Air, Our Water, Our Land And Our Future.

I am also here today as the Secretary of The Church Of Ubuntu.

The Church Of Ubuntu (COU) is a self empowered community of individuals and a multi-faith spiritual group, based in Newcastle NSW, with many members of our community living here on The Central Coast of NSW.

The COU assists sentient beings (people and animals) struggling with all kinds of significant physical and emotional health issues. We currently provide Cannabis Food Concentrates (referred to by some as medicinal cannabis) to nearly 3000 people nationally.

We assist the fast growing number of children struggling with epilepsy and multiple seizures; the many wide and varied autoimmune diseases, we assist people with MS, fibromyalgia, depression, leukemia, anxiety, Parkinson's disease and many other complex health conditions many of which are on the increase in our society.

We also assist 100's of people struggling with a fast increasing number of intractable cancers and other health conditions created by toxic living environments, the severe side effects from many invasive pharmaceutical products and treatments, vaccination damage, as well as individuals whose health has been compromised from the open public sale of unhealthy food products in major supermarkets.

We assist many people in desperate need as the Governments continue to privatise our National and State health systems, and persecute us, and our clients, for healing the sick and suffering with natural plants and medicines.

Love, Honour & Gratitude

"I would like to begin by honouring the indigenous people of the world, who have endured unimaginable hardship at the hands of invaders, colonisers and slave traders. It is with great respect and humility that I recognise their amazing contribution to humanity for carrying the spirit of Ubuntu for all these years."

I also recognize that we are standing on Stolen Land that was colonized by the British Empire around 230 years ago, through disgusting acts with thousands of senseless cruel murders, appalling sexual violations including rapes, organised beheadings, the destruction of family units, decimation of culture, the prostitution of Aboriginal children through our supposed religious institutions, the State Control of Aboriginal children and a kind of sporadic gorilla warfare.

It is most regrettable and may I even say, appalling, that in this country that we call Australia, some of these things are still happening today.

I would like to perform a very short musical piece dedicated to my good friend and Aboriginal Elder Aunty Mimmie (Elizabeth Humble) & The Tragic Loss Of Much Of The Leard State Forest. This forest was stolen from both The Gomeroi Nation and "We The People" by the Government.

If you are not aware of this Travesty of Justice, the NSW Government condones and profits from allowing Mines into our State Forests, The results of this to date, just in The Leard Forest alone, include, the complete and utter mindless destruction of ten significant identified Aboriginal Sacred Sites, the bulldozing of a sacred Women's site and then consciously and deliberately detonating a burial ground, as well as numerous other appalling acts, destroying massive areas of native Flora and Fauna and destroying the aquifer, possibly forever.

This Continues TODAY ! (musical piece and image)

(ocarina) Gomeroi/Leard Forest Lament

I would like as an aside to mention that I am thankful that the Politicians Eddy Obeid and Ian McDonald have finally after many years, been found guilty, and that "We The People" are holding many other Government officials culpable, as there are many many more.

It is regrettable that by the time the very slow legal process unfolds, and that truth is finally revealed, that the Leard State Forest as just one example,

Will Be Gone FOREVER !

Why Am I Here Today ?

I am here to empower all of you "We The People" and to remind you of some of your fundamental human and representative democratic rights, that you appear to have either forgotten, or perhaps more importantly, have been programmed and led to believe you do not have.

(Wallarah 2 Image)

In regards to this project (The Wallarah 2 Coal Project) it has been long established that it presents a significant risk to the water supply for approximately 300,000 Central Coast Residents.

There are of course many many other serious concerns on its impact to Land, Cultural Heritage, Flora & Fauna, properties, noise, subsidence, railway lines etc etc , in this regard with many of the people here today, I am to a large degree preaching to the converted.

Also notwithstanding that the NSW Government was elected on the promise that it would not allow this project to happen, then after being elected, they did a huge turnaround and after their appointment or "Oath of Office" (which is their sworn allegiance to the Australian Constitution).

Something as Australians we've become far too accustomed to seeing.

Then there's the corruption of course, the ICAC Investigation and the removal of some of these Government representatives that were found to be corrupt.

I think we all understand this pretty well as we have seen this same theme repeated on many many occasions, in many places, over many years.

I have personally witnessed the destruction of the Leard State Forest, I have seen the many "dead zones" caused by Santos in the Pilliga, I was at Bentley in the Northern Rivers of NSW, I was with The residents of Fullerton Cove north of Newcastle, whom despite a final victory against Coal Seam Gas are now plagued with PFC contamination.

(talk about Williamtown and National Situation)

Then there are the concerns in Queensland, The pin cushioning of the Darling Downs region with Coal Seam Gas and shocking environmental disasters with Underground Coal Gasification (UCG), Families with sick children caused from toxic environmental pollution in Tara, Chinchilla, Roma and many many other places.

Very little of this, will you see in our

Corporate and Government Controlled Media.

(Lest We Forget)

The approval of the worlds largest Coal Mine Adani up in northern QLD.

All of these approvals continue, while "We The People" know in truth that we must as soon as is possible, stop all invasive mining.

Climate Change is a reality in which we all have a huge responsibility.

A quote from the late Jiddhu Krishnamurti comes to mind.

"To be well adjusted to a profoundly sick society, is no measure of health"

or Swami Vivekananda

"We are what our thoughts make us, be careful what you think"

Cannabis (Hemp) is a potential multi-billion dollar industry, that can help heal people, (the endocannabinoid system is an amazing discovery) Cannabis can clean polluted lands, pull carbon out of the atmosphere, make incredible building materials, clothing, plastics, bio-fuels, even vehicles themselves (Henry Ford) and all biodegradable, holistic, and all non invasive.

I haven't even touched on or mentioned our renewable options that exist here in this country today now. There is nothing we could not achieve

We have all of this at our finger tips and yet.....

In the words of the late great Sir Charles Spencer (Charlie Chaplin) "We the People Have The Power " the means whereby we can change the course of this country and the world.

So what does the Government Corporation do about this?

With the Cannabis Community, the NSW Government criminalises us for helping heal the sick, they even try to take our clients children away, For what? Because we help people by providing access to a Benign God given plant, a recognised super food and a profound amazing medicine.

With those fighting invasive mining, The NSW Government introduces new laws , without our consent, that can put individuals like myself, and people like you, in jail for up to seven years, for trying to stop what we must stop. Climate Change is real.

Our window of opportunity to make a real significant difference, is fast diminishing, as we move at an alarming rate, from a representative democracy, into all out national fascism.

So why is this happening? Let me explain

Until the time a Politician gets elected, they of course share their policies and plans and strategies with the people, and it all sounds pretty cool.

But after they are elected and they take their "Oath Of Office" (to the Australian Constitution) something happens. There are some very rare exceptions by most Politicians from this point forward, stop representing the people, and start representing the Australian Parliament Corporation and the Multi National Corporations, that to a large degree, control them.

It's All About The Money!

So here are some facts as documented and supported by many qualified legal representatives both within Australia and around the world.

The Australian Constitution is actually a British Act, as we still have the Queen as our Sovereign, consequently our politicians make an oath of office to Britain not Australia. This is what is meant when our indigenous brothers and sisters say "Sovereignty never seeded". Australia was never ever declared a Sovereign Nation. There were several attempts after the declaration of the Australian Constitution in 1901, but the Australian Constitution still stands as our founding document.

This is further complicated as it has been recognised legally for some time, that Great Britain is a Foreign Power. That is the High Court of Australia ruled that the United Kingdom is a foreign power (Sue v Hill HCA 30 of 1999)

Commonwealth of Australia Constitution Act 1900 Chapter 12 sections 44(i) & 44(v)

44. Any person who-

(i.) Is under any acknowledgment of allegiance, obedience, or adherence to a foreign power, or is a subject or a citizen or entitled to the rights or privileges of a subject or a citizen of a foreign power : or

(v.) Has any direct or indirect pecuniary interest in any agreement with the Public Service of the Commonwealth otherwise than as a member and in common with the other members of an incorporated company consisting of more than twenty-five persons:

shall be incapable of being chosen or of sitting as a Senator or a member of the House of Representatives.

This means our Government is illegitimate and invalid, every single one of them.

Australia is not a Sovereign independent Nation we are actually ruled by a Corporation. Now do you understand why "We The People" are treated like we have no value and its all about maximizing profit at the expense of everything else. Economy, Economy, Economy.

At this point it is also worth noting that the preamble for the Australian Constitution states quite clearly that "We The People" invoke the Commonwealth of Australia Constitution Act into being. We are the highest law in the land. We elect our Governments (sections 7 and 24) to serve us. This is why they are called "Public Servants".

The PAC here today are Public Servants they are here to serve us and to do our bidding.

(Please don't laugh)

Consequently the PAC here today must do what "We The People" want them to do, not what they decide to do on our behalf.

Then when we are told this is a State Government Matter and that The Australian Constitution does not applythis is untrue.

Clause 5 in the Constitution preamble, states that the Act "shall be binding on the courts, judges, and the people of every State and of every part of the Commonwealth"

Section 108 – which dictates that any colony that becomes a State under the Constitution is subject to the Constitution.

Section 109 – goes on to state that, where there is a conflict between a State law and a Commonwealth law, then the latter shall prevail

This next section is my personal favourite, because if enacted, it fixes everything and please remember the sections mentioned above.

Commonwealth of Australia Constitution Act Chapter 12 section 100

"The Commonwealth shall not, by any law or regulation of trade or commerce, abridge the right of a state or of the residents therein to the reasonable use of the waters of rivers for conservation or irrigation."

With this information now available to you "We The People" recognise that we have been lied to by our Governments, both State and Federal, and that they are in breach of The Australian Constitution, which I might add is also one of the founding pillars of our legal system.

And what does the Government fear more than anything else. That "We The People" enact our fundamental right and hold them culpable.

In the state of New South Wales, the power to arrest is granted to anyone who is not a police officer by section 100 of the Law Enforcement (Powers and Responsibilities) Act 2002. Under this Act, a person may, without a warrant, arrest another person if: that person is in the act of committing an offence under any Act or statutory instrument.

So "We The People" are going to collectively citizens arrest the Planning Assessment Commission here today. We are not going to be offensive, we are not going to cause any harm to their wellbeing, we are not going to touch them or give them any reason to fear for their safety. This is a peaceful direct action.

However, we are going to arrest them.

By so doing the onus will be, not on us proving that they are guilty of this offence, but on them proving to us that they are not !

So I would now like to ask all of you whom are willing, to stand with us and support us in this action. The more of you that stand with us the more powerful this becomes. The Government can do nothing to you for participating in this action providing you honour and respect our code of conduct.

I now humbly ask those of you that realize the truth of what I share to now stand and join us. Once this action is complete, if one of you would be kind enough to call the NSW Police, and to notify them of this action immediately and to humbly request their presence.

"We The People" of Australia in The State Of NSW , solemnly, and with all due respect, do hereby publically arrest the NSW State Government Planning Assessment Commission in accordance with our rights specified in section 100 of The NSW Law Enforcement And Powers And Responsibilities Act.

The NSW Planning Assessment Commission and The Governments, both State and Federal, (that have condoned them being here today), are in direct breach of an Act or Statutory Instrument, namely the Australian Constitution Act Sections 100 and sections 44 parts 1 and part 5.

We ask that you (The PAC) remain seated and that you wait patiently until the NSW Police arrive so our collective citizens arrest can be acknowledged and recorded. Once the Police arrive and they acknowledge and record this public arrest, they will determine the appropriate action and decide what to do with you. We have exercised our right as "We The People" and the onus will now be on you "The NSW Planning And Assessment Commission" and whose whom sent you here today, to prove in the High Court of Australia, that you are not guilty of these constitutional offences.
