I am a resident of Greendale Rd in Wallacia. I am opposed to the Wallacia Cemetery proposal.

I just wanted to bring something to your attention which I believe seems to have been overlooked, which I am not sure if you are aware of.

Dear Sir/Madam,

I do not know all the exact details so I will do my best to be as accurate as possible but if you could check out these details, that would be great. Even better is if you could make this information available to all involved including the community and 'the powers that be'.

- As far as I'm aware Greendale Rd falls under 3 council areas – being Penrith, Liverpool and Wollondilly.
- There is already one small cemetery on Greendale Rd.
- I believe that 3 more large cemeteries have been approved on Greendale Rd.
- The Wallacia Cemetery is literally at the end of Greendale Rd.
- There is only one road out for these cemeteries, which is Greendale Rd.

So, this would total 5 cemeteries virtually all on Greendale Rd, which I live on. If these cemeteries had a service on at similar times, just trying to get out of my driveway would be a nightmare, not to mention the traffic congestion for the Wallacia community. It's no wonder that we are getting a negative future outlook, with horrible terms being used such as 'dead city'.

Have the various councils involved discussed these plans with each other? It seems that they don't. Something is seriously wrong here.

I would very much appreciate a reply to this email so I know it's has been received and if any action will be taken.

Thanks and regards, Jeff Agius
