**Modification to Kings Forest Residential Subdivision KOALA PLAN OF MANAGEMENT (MOD 4) – D544-18**

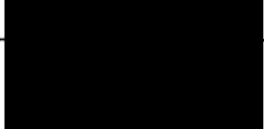

Thank you for the opportunity to hear my views on the above matter. My comments on the Departments assessment report are as follows.

I believe that ,

1. **Offset planting of 27ha of Koala Food Trees is not clear and is unresolved. It must be secured** through binding or legal arrangement before any construction commences.
2. **Entrance roads through Environmental Protection Zones must have underpasses** before any construction commences. If ONLY fencing is installed without underpasses it will result in Koalas and wildlife being cut off from their natural corridor for many years.
3. **The Cudgen Paddock (golf course) should not be fenced off** .It was always to be part of the wildlife corridor and fencing would stop the Koalas from access to their food trees. The fencing should be placed around urban areas that abut the golf course to allow koalas and other wildlife unimpeded access to it.

4. It saddens me to see that our governments put developmental \$\$\$ before the welfare of our beautiful wildlife. These Koalas are iconic to Australia - used as mascots at Commonwealth & Olympic games but the government doesn't think they are worthy of saving their environment. to help them survive. PTO

As a member of this community I am very passionate about protecting our endangered Tweed Coast Koalas in Kings Forest, please consider carefully the important points I have raised and include them in your final decision.

Signature 

I would like to know how our ~~politicians~~  
politicians are going to be able  
to look at their grandchildren &  
great grandchildren & tell them they  
were responsible for not helping  
save our koalas & that why they  
can only see them in books.

Please help save our koalas.
