Subject: Dartbrook Cola Mine-Modification 7
Date: Monday, 1 April 2019 8:30:20 AM

IPCN,

Regarding the Dartbrook Coal mine ,modification 7, I believe the project should be approved.

- the project will employ a significant number of people,local and from the wider community.

- the project will stimulate the local and broader community economically,

- mining,directly and indirectly is by far the largest supplier of funds to the three tiers of government

- lastly giving a person a job is the very best form of support and that person becomes an active member of society.

Andrew Lewis
