My name is Robin Murray

My address is [REDACTED]

I object to the Dartbrook coal mine modification as referred to above.

I have been told that there have been a substantial number of detailed presentations by experts to demonstrate the Proponent's application did not address many important issues.

In other cases that the details in the application were wrong, including: **impact on the Special Economic Zones for the Equine and Viticulture industries, and the economic outcomes for Australia and NSW.**

The effects on the water and the landscape and the noise.

We need to protect our Aboriginal and Colonial heritage.

Therefore, as I understand the case, the Independent Planning Commission now has enough information before it to understand that the Application should fail, and so I ask that the IPC now refuse the application.
