---

Dear Sir / Madame

I would like to object to the proposal by the developer, to modify (MOD3 MP06-0276 MOD3) for further land clearing of small stand of trees in the southern end of the subdivision . These areas were were in the original plan for reserves for habitat, they are important for birds and other animals as a stoping off zone and form a type of corridor .

These tiny reserves in Narrawallee will be very important however small, as further land clearing for housing estates will happen in the future.

We can't have the developers modify their plans against the overall tide of opposition from the community.

Please reject these amendments.

Yours sincerely  
Alex Walburn & Jacqueline Wilkes
