To the Independent Planning Commission

Dear Commissioners,

I wish to make a comment on the proposed modification. I believe the proposal to obtain 6 extra house blocks at the southern end of the subdivision in Carinya St. is undesirable. This will destroy a lovely stand of tall trees, which provide shade for the council reserve strip along Seaspray St. The area also connects to the existing reserve and closing it off would leave a small isolated "island" that could become an area for undesirable activities. Much better to leave the whole area open as it currently is.

The current area will be a good area for kids to explore and enjoy the outdoors.

There has been far too much tree clearing already with this subdivision, so I certainly don't agree with any more clearing.

Yours sincerely

Alister Nairn
