Subject: Narrawallee green area

I wish to express my concern regarding further bush destruction in and around the Narrawallee, Mollymook area. I believe the reserve with trees at the southern end of Carinya Place Narrawallee should be kept.

Since the removal of bushland around the Mollymook area it has noticeable destroyed bird habitat and wildlife. The aesthetics of the area is loved by all, however I feel a city suburbia feel is creeping in.

Regards

Tracey and Russell Smith
