Subject: Bowmans Creek Wind Farm
Date: Tuesday, 19 December 2023 12:34:01 PM

As the old saying goes : “the devil is in the detail” , , It would appear that the DPE have been complice in their dealings with the Bowmans Creek Wind Farm Developers ; their apparent non-adherence to the proper / full procedural requirements surely borders on corruption . An example , is what appears to be a case of “turn a blind eye” to the failure of the Developer to provide certain information as requested by the DPE themselves . Perhaps they (DPE) are “pressured” by political forces to get these renewable projects approved .

But another aspect of the whole approval process which has been ignored , is the issue of “social license” ; not just that which applies to the Developers , but that which also applies to the potential HOSTS (landowners) of the Turbines : as those HOSTS enjoy the “economies of scale” which comes with large landholdings , it could be seen by others that the motivation to be HOSTS has more to do with GREED than actual NEED .

Other residents in this Wind Farm Region , will , if the Project is approved , have the burden of , and suffer the ongoing degradation of THEIR wealth ; as a life-long resident /landowner in this area , on a property that has been in our family since 1912 (111 years) , , I consider a very large part of MY WEALTH to be the local VISUAL/RURAL AMENITY , , something I would like to cherish to my last days .

This Wind Farm should NOT be approved .

I declare that I have not made any political donations , and approve of my name being made public .

Malcolm Ritter . [REDACTED] , Greenlands , NSW 2330
