

Viewpoint 2

Viewpoint 2	The Bucketts Way
Category of view	Immediate vicinity
Landscape context	Arterial road
Distance of view	100m (from intersection)
Relative number of viewers	Large
Likely duration of view	Short (traffic)
Visual sensitivity	Moderate
Visual effect	Moderate
Visual impact rating	Moderate

Description:

View from north of the intersection along The Bucketts Way looking southward toward the proposed intersection. The existing road will be widened to accommodate acceleration/deceleration lanes as well as central turning lanes.

not adequate in width or length.

Comments:

This view represents the typical view when driving along The Bucketts Way. As with Viewpoint 1, the visual impact will be greatest during the construction of the intersection. After the intersection and road is in place, the visual impact will be minimal as it will be seen as just another road entering The Bucketts Way.

Rubbish - more bushland gone - and a haul Road built between the 2 dams on one of the entire nicest agricultural land for cattle in the entire area has been handed over by the family to be destroyed with haul Roads travelling across pasture grams for cattle and crossing over deep creek - noise - dust - Fomes - Fomes 5 - Page 20 Should not be approved at all!
