

Dear Sir or Madam

**Re: Proposed Cemetery Development at Mt Carmel Monastery Varroville area**

I am writing to **oppose/object** the proposed development of the abovementioned cemetery for the following reasons:

1. The properties close to the proximity of a proposed cemetery will affect its appeal on the market when it comes time to sell
2. Traffic congestion will be an issue as funeral processions are usually long and slow, especially if there are multiple or large services on
3. The noise of the heavy machinery of the earth movers to dig graves and noise from lawn mowers or other maintenance equipment will be an issue to the residents living near the cemetery
4. Residents living near the cemetery are potentially at risk of exposure to biohazards
5. The sight of the cemetery for high school students attending the Mt Carmel High School could greatly affect their mental, psychological and emotional well-being.

I request that the developers not pursue with their plan to develop a cemetery in the Varroville area and look for other vacant areas to develop with no existing houses in it.

Please be considerate with the residents living near the Varroville area! Imagine if you are in this situation and/or if you have a family member living opposite the Scenic Hills. The thought of living near the cemetery is making them feel terrified and worried.

Thanking you for your consideration.

Sincerely
