The NSW IPC

Re: Vickery Extension Project

We wish to support the project for this region. The mines in this area have enabled this region to grow and prosper. Jobs and new opportunities have opened up for local people and business. During times of drought, which are a given in this part of the country, small towns would struggle if it weren't for the mines.

The Extension project will bring in new jobs enabling local people to remain in the area and allowing the communities to be relevant with up to date services. We may not all be able to agree on the benefits but there is no question that our local communities would suffer without this input.

Mathieu Rosier
