

Although I've only worked at The Bloomfield Group for a short period, it is overwhelming evident to me that this truly is a family business that really does Care and Deliver.

I have worked in the mining industry for 14 years now in the Hunter and have not enjoyed my career as much as when coming to Rix's Creek. It really is a big family!

To see the MOD 10 rejected would be not only devastating to our workforce but also the communities in which we all live. Cafes, supermarkets, schools and other local businesses and organisations that rely on patronage from our people. This place is an amazing opportunity for so many young people that are employed, trained and guided toward a career in all manner of facets of the industry. On behalf of my wife, our two children and myself, I make my support of the MOD 10 public here.

Regards

Joe Gollan
