

I strongly support the upgrade to Aarons Pass Road. That road has been neglected by council for over 30 years. In its current state it is appalling and dangerous for people using it. The Crudine Ridge Farm has offered to pay for the upgrade and I can't understand why people are against it. (Maybe it's to do with those local people against it, not getting wind turbines on their properties) I can't understand their logic to whinge about something that would benefit them to. Some of the people who are against it don't live in this area, never use the road and are still complaining about it.
