Re: Maxwell Underground Project

Dear Commission

My name is Emil McCabe and I am one of the directors and a major shareholder of FlyPelican, which is a small privately owned Australian regional airline that operates out of Newcastle airport. I live in the Hunter region with my wife and three young daughters, and I have called the Hunter region home for the last 30 years.

I am writing to register my support for Malabar Resources' Maxwell Underground Project.

I support the Project because I believe it will help boost the local economy and help businesses, like my own, in the region. From my understanding, the Maxwell Project will generate 250 jobs during construction and 350 jobs during operations. This will have a substantial impact to local businesses in the region and the flow-on effect will be significant. Projects like these bring people to the area, helping the region to grow and boosting the local economy.

I have personally seen the impacts of mining projects like these and the positive effect that they have on small businesses. I have no doubt that this Project will have long-term, positive impacts on the region that I call home.

Kind regards,
Emil McCabe
Director of FlyPelican
