Dr Neil Shepherd AM
Chair – NSW Planning Assessment Commission
pac@pac.nsw.gov.au

Dear Dr Shepherd,

**R024/14 – Wallarah 2 Coal Project**

I write to make formal submission to the NSW Planning Assessment Commission (PAC) on the proposed Wallarah 2 Coal Project.

As part of the PAC’s considerations, I urge you to take into strong and thorough consideration all scientific based environmental, social and economic reports.

Any proposal that is scientifically proven to have a detrimental impact on the Central Coast’s water supply will not be supported by the community.

Furthermore, it is important that strong and strict safeguards are to be applied to any approval, in order to protect the Central Coast’s water supply.

Thank you for your consideration of these important factors.

Kind Regards,

Karen McNamara MP
Federal Member for Dobell
