

9 May 2017

To Whom It May Concern,

I would like to submit on behalf of my company Tori Peter Group P/L, in which I am the director, a written submission in support of the Bylong Coal Project.

Tori Peter Group is a regional Building & Development company that builds residential houses and develops land for subdivision. Tori Peter Group also holds properties for investment via long-term tenant rentals & luxury accommodation for short-term tourist stays trading as Kirsten Serviced Accommodation.

Tori Peter Group P/L supports the Bylong Coal Project as we believe that the project will benefit the community in the following ways:

- Directly supplying jobs for regional people. This will increase income which will stimulate the local economy as individual expenditure in the local community will increase.
- Stimulate the construction of housing by providing homes for the Operations Phase where the employees will be encouraged to reside locally and source accommodation in the local area. This will generate jobs for regional trades & builders.
- Stimulate the need for Accommodation both long term and short term thus increasing the income for regional property investors & accommodation owners
- Stimulate the regional retail & hospitality sector as the increase in population will produce a need for facilities to provide food, drink, clothing, entertainment & transport.

The Bylong Coal Project will be a major generational investment in the Mid-Western Region.

Tori Peter Group P/L have hosted the KEPCO employees over the last few years and we look forward for this to continue over the years to come.

Thank you for your attention.

Yours Sincerely,

Pete Veleski

Director

PO Box 3421, Bangor NSW, 2234
