Subject: Rocky Hill Coal Project
Date: Saturday, 11 November 2017 5:00:21 PM

Dear Commissioners

I thank you for the opportunity to voice my opposition to The Rocky Hill Coal Project.

I have lived in Gloucester for 29 years and chose to live here because of the clean air, quiet surroundings and picturesque landscape. All of these things would be changed by a coal mine so close to town. Where my husband and I live at 4500 Bucketts Way we will be little more than 1 kilometre directly across the Avon Valley from the proposed mine and would be affected by dust, noise, light and the visual degradation of the landscape.

In the town the impact on the eco-tourism businesses would mean a loss of jobs and trading opportunities. The district would lose its appeal not only to tourists, but also to retirees from the city seeking a tree change.

I support the Department of Planning's Assessment Report and Recommendation regarding the Rocky Hill Coal Project and request that the PAC not approve the project.

Thank you for paying attention to the real people in the real situation.

Yours faithfully

Claire Reynolds (Mrs)
