13 November 2017

Dear Mr Todd-Jones,

ROCKY HILL COAL PROJECT (SSD 5156) GLOUCESTER

I write to express my opposition to the above development.

The proposed mine is too close to the town. It would adversely affect the air quality in the town and for residents in its immediate vicinity it would also cause noise pollution.

The mine would also adversely affect the scenic values of the town and its surroundings and would therefore have a detrimental effect on the important tourist industry.

Yours faithfully

[REDACTED]
