TO WHOM IT MAY CONCERN

We wish to show our support for the Rocky Hill Project. Having lived in Gloucester all our lives, we have seen the demise of the dairy industry, timber industry & associated businesses.

Any genuine local will see the future of the town of Gloucester is in a downward spiral if this project is not approved.

Being a local business owner & employer we have seen numerous trade people, families & friends having to relocate to obtain employment.

There has been a mine operating in the Stratford area for quite some time, with little impact on the local environment or tourism industry. It has provided more local employment & funding for many community & sporting projects over the years than any other industry in town.

We believe if this project meets all requirements needed, this project needs to be approved for a viable future for Gloucester.

Regards
