

Planning Assessment Comm.
Level 3 - 210 Elizabeth St
Sydney 2000

Dear Sir

I am a local resident of
Gloucester with 49 years of doing
business in the main street.

I am retired now but still keep
in contact with the local business houses
and I can say most of them would
dearly like to see Rocky Hill Coal go
ahead.

Gloucester has struggled like all
small country towns due to the closing
of dairy and forest industries.

This project would give the town
a great lift and open up many
opportunities for jobs for our young

people that do not even live in
our district and a lot of the other
from those who came here to
retire and don't give a stuff about
our young people.

Hoping you give this project the
green light

Yours Sincerely
Peter Sansom
