Re The Inuvincible Colliery Southern Extension Modification

As a small business in Portland, a neighbouring small town, we are totally in favour of this.

Our region has suffered many "blows" in the last few years. Mine Closures, power station closures and other associated job losses have had a devastating effect on our small towns, leading to people, especially families having to move away, this has had a major effect on entire communities with business closures being only one effect.

The creating of jobs with this extension will have a beneficial effect on morale, business and cash flow back into our communities.

Thankyou for taking the time to read our submission.  
M. Downey
