Dear Mr Forward,

I strongly opposed the Department of Planning and Environment recommendation to allow and expand coal mining in the Gardens of Stone region.

I'm temporarily living in this region for about 2 months and have been hiking and exploring the area that will be affected by the proposed mining operation. This place has amazing world class value as a unique and scenic protected environment with obvious long-term tourist and recreation potential. Open-cut coal mining in this area will cause irreparable damage and is incredibly short-sighted.

Thank you for considering my views on this.

Sincerely,
Trapper Robbins
