Subject: OPPOSITION AGAINST BURIAL PLT CEMETERY ON WALLACIA GOLF COURSE
Date: Monday, 18 February 2019 6:41:51 PM
Importance: High

Good Evening all,

I am writing to you today to advise of our opposition against the development of the 88,000 burial plot cemetery on Wallacia golf course.

This is based on the following information at hand:-

- This development should never have proceeded this far to the independent planning commission as there are many applications before the minister for planning and government that are much older than this application that have not even been looked at.
- This case was RUSHED through which raises alarm bells, does it not.
- It is now suggested that a request for a financial audit into the purchase of this land/developer/development be undertaken immediately. This will then generate the possible corruption that has occurred into this development
- No opportunity given reasonable timeframe in which the community could respond being it occurred over the Christmas period of December, January.
- The destruction of our landscape in the Wallacia rural community and village will be severely impacted being peoples HOMES, SCHOOLS, WATERWAYS, HEALTH and many more
- The destruction of natural habitat, landscape, floral and fauna is imminent and threatening to endangered species!
- The development will decrease and have a huge impact on the value of our property at 137 Park Road, Wallacia.
- A cemetery is not an option for this area due to the natural water ways and the escapement of chemicals into the Nepean river and severe damage it will cause to our health in this community.
- It is apparent, that this is a severe threat to our community and will destroy the community township/village
- The infrastructure will not accommodate for this development and will cause massive negative impact to the area and congestion of our roads, which in turn will increase risk of accidents, fatalities etc.

I TRUST, that our opposition in this community, for this development is taken very seriously and given the Priority it deserves and the results it deserves to prevent a burial plot cemetery to progress at Wallacia Golf Course.

Yours sincerely

Louis & Melissa Pulo
