

Dear Independent Planning Commission NSW.

I wish to inform you that I **support** the West Culburra Concept Proposal (SSD3846).

This development is vitally important to our small coastal village as the staged land release will bring much needed long term jobs to help stop the decline of our shops and businesses closing.

The majority of the community at every public meeting have voted overwhelming in support of both these developments.

I wish I could attend your public meeting but the timing means I am working and unable to attend.

I would ask you please seriously consider this very important proposal so our town can grow into the future.

Name. SHANE FOX (FORMER CULBURRA HARDWARE Employee)  
Address. [REDACTED]
