Subject: Save Aarons Pass Rd and the Koalas
Date: Monday, 10 June 2019 1:53:21 PM

The removal of trees along Aarons Pass Rd that CWP seek should not be approved as it would be an absolute environmental disaster!!

I DO NOT agree to the destruction of koala habitat for the sake of 37 wind turbines. As has been well documented, our incredible native animals find themselves in a precarious situation because this is NOT a green project and is extremely contradictory to what it is attempting to achieve if this is allowed to proceed.

Regards
L McKay
