**Updates after commencement:**

**30 December 2019:**

Andrew Hutton notified the Commission Chair of a perceived conflict of interest.

Mr Hutton advised the Commission Chair that after his appointment to this Panel, he had been engaged by a company not involved in this application to provide project direction on an unrelated project. The proponent's lead consultant on the New England Solar Farm application before this Panel will be a sub-consultant on that unrelated project.

Mr Hutton has had no role in the direct engagement of the sub-consultants on the unrelated project other than assisting that applicant in reviewing the scope of works to be undertaken by the sub-consultant. Mr Hutton's project direction role on the unrelated project is independent of any form of direction, management or control by the sub-consultant on that project.

**Professor Mary O'Kane (Chair) considered the above and has determined that the nomination of Andrew Hutton to the Panel can proceed.**

**14 January 2020:**

The Commission Chair was notified that Snow Barlow previously worked and lived in the region of this application some decades ago. Consequently, Professor Barlow may be acquainted with the families of some people who have made submissions in respect of the application.

Professor Barlow does not, to the best of his knowledge, know of any close friends or family members involved in the application.

**Professor Mary O'Kane (Chair) considered the above and has determined that the nomination of Snow Barlow to the Panel can proceed.**

This register is made upon the nomination of Commissioners, to the determination or hearing panel. It may be updated if actual, potential, or perceived conflicts arise during the determination or hearing process.
