Subject: Nords Wharf Concept Plan -Modification 1 (MP 10_0088MOD 1)

Dear Sir/Madam.

I fully support the objection to the signal lights being relocated to Nords Wharf Road and Pacific Highway.

Thank you for the opportunity to have the Public Meeting yesterday

As a 40 year plus resident of Nords Wharf I love the village ambience of Nords Wharf.

As our roads have not been constructed for heavy traffic I would like the lights to be installed at Awabakul Drive thus diverting the traffic from going through the village.

As a hilly suburb our roads have many blind spots, double lines are everywhere and if cars are parked either side of the roads there is no room for passing cars.

Many driveways have blind exits as well. It is hazardous now to drive here let alone with another at least 25% more cars not to mention all the trucks during the building stage of the new development.

Footpaths (apart from the one outside the preschool) are non existent. Thus ensuring all pedestrians also share our roads.

I don't think we have the infrastructure to support more people, as evidenced by our recent sewer problem after the power outage.

Please carefully consider all our objections raised in the meeting yesterday.

Thank you

Your sincerely

Jullie Ann Johnson
