RE MY SUBMISSION  
IN OPPOSITION

TO THE SANTOS NARRABRI COAL SEAM GAS  
PROJECT.

DEAR IPC,

THANK YOU FOR THE OPPORTUNITY TO MAKE  
MY SUBMISSION.

I FEEL IT IS NOT THE TIME TO NEGLECT EN-  
VIRONMENTAL CONCERNS & DESTRUCTION OF THE NATURAL  
ENVIRONMENT & SUSTAINABILITY, DUE TO CURRENT ECONOMIC  
CONCERNS.

THERE ARE MANY WAYS TO STIMULATE THE ECONOMY,  
WITHOUT RISKING DESTROYING VITAL NATURAL RESOURCES,  
FOR EXAMPLE, INVESTMENT IN RENEWABLE ENERGY,  
SOLAR, WIND, PUMPED HYDRO, THE GRID EG, TRANSMISSION  
WIRES ETC. ETC. RENEWABLES, INTERNATIONALLY, WILL ACCOUNT  
FOR SOME 25 TRILLION DOLLARS OF THE ENERGY MARKET &  
THIS, FROM A NATIONAL & INTERNATIONAL POINT OF VIEW, CAN'T  
BE IGNORED ECONOMICALLY, IN THE NEXT FEW YEARS & FUTURE.

IF WE CONTAMINATE & DESTROY FURTHER NATURAL  
RESOURCES & THE ENVIRONMENT FURTHER, I BELIEVE THIS  
WILL NOT SIT WELL IN HINDSIGHT & HISTORY.

IF CSG HAD TO CLEAN UP THE ENVIRONMENTAL  
DAMAGE & DEGRADATION THEY CAUSE, CSG WOULD BE  
TOTALLY UNVIABLE. THERE ARE MUCH CLEANER WAYS  
TO PROVIDE ENERGY & STIMULATE THE ECONOMY, I FEEL.

BEST WISHES TO THE IPC  
YOURS SINCERELY  
E. SERHAN
