We are a farming family with Sons on the land with grandsons coming up.
We would like to think what we have built up over the past years, will be there for those children to inherit & carry on.
The bio sececurity of risk of toxic waterways to the farming communities, that need ground water is substantial, the amount of salt waste that Santos needs to dispose of where will this go? it is a risk to the Australian agricultural industry
As for Insurance Companies saying they will no longer insure properties with CS9, what happens to them.

Please continue on back side.

A survey was taken some years ago in the
Gulgandra Shire with 98.9% opposing this Gas
Project .

Please listen to the affected Stakeholders
in this matter a STOP ALL WORK NOW .
