I strongly object to the project as it threatens the life of the Great Artesian Basin & all that live in the region, whether that be fauna, flora & the people & communities. There has been so much historical evidence supplied over the years that our irreplaceable GAB will be damaged, which will destroy livelihoods, communities & the natural environment.

Please continue on back side.

please look at the evidence that has been supplied from the damage that has been done in other countries & has now destroyed those areas of communities & livelihoods.

The gas ^{is} ~~is~~ a short term resource where the GAB ~~is~~ should be there after the gas is gone but it won't be as it will be damaged beyond repair along with the communities in those areas.

as a farmer that's family have farmed in our region for over a century, I want future generations to have that opportunity to do the same as their ancestors.

Please don't destroy & sell out our land for short term gain.

We are the food bowl producers for Australia!

Margaret Fyfe
