

The people who are directly responsible for this Stupid and irresponsible idea of power and money for the proposal of the CSG Narrabri Gas field that will permanently destroy the water, soils, towns and people that work on the land and live in the towns forever .

There are hundreds of examples that you have failed to notice both in America , the world and in Queensland where the poor farmers have lost their livelihood and right to work their own farms which are no longer viable because of CSG, well done there, and by the way the value of those contaminated farms is worth ZERO and if they have an overdraft with a bank they can't pay back the loans if their farm is worth zero and production value is also ZERO, have you thought about that NO!

There is a 99 % risk of contamination with pipes rusting CSG leaking and this cannot be plumbed up EVER! so if you let this continue you are signing away your jobs and a death sentence will be on your hands . In case you did not know most people hate and despise you all levels of Government, all because you cannot be trusted and will roll over and any sign of money and power how disgusting you are!

In fact, none of you should be allowed to run the country because you have sold us out to the Chinese, with the purchase of properties and real estate. Well done there.SO MANY BAD DECISIONS BEEN MADE BY

## GOVERNMENTS AND YOU WANT TO ADD TO THIS LIST??

We as farmers have had enough of your stupid ideas so LEAVE US ALONE! And go wreck your own places and places of residence before you attempt to destroy our livelihoods , in other words we don't want CSG ever no matter how much money they throw at you, and all your little restrictions are only words and mean nothing because the long term damage is irreversible , and until you come up with something that won't destroy our right to live and work on the land and earn an income , Oh that's right we pay taxes , to keep you people in a job and we don't care that you can talk the talk to justify your actions, but can't say no to these bastards! Your "advisers" must be bloody idiots too. There will be no income from the farmers if you do this and then you will be forced to import all produce from overseas , and that will cost you more to live and eat.

So, if you have any grey matter left in your heads STOP STOP ALL CSG from starting in NSW before we all lose our lives, income, and ability to produce the best food and fibre in the world.

You have more important things to attend to internally, the welfare system , they are beating you there , ( our taxes ,not your money) the lack of police and 24-hour service in the small towns and rising crime rates people don't feel safe, and doing something

about the government in Queensland issuing licence for the CSG and ruined those farmer's lives, that does need to be reversed, deregister these CSG companies and remove their licenses forever even if they trade under another name. Finally, everyone in parliament needs to be held accountable for their spending of our taxpayer money ,and when retired from Parliament No more money , Get a bloody JOB!

Keep off our land make a good right decision and after all you should want to protect this country and people at any cost and temptation from Foreign ownership, and companies set out to destroy our land , forever! and in case you don't already know Santos like all the others do nothing but lie, deceive and cheat their way to get what they want and nobody believes or trust them! They probably laughing in your face AND BEHIND YOUR BACKS.

When they put a CSG plant near your houses and parliament house and the pipe leaks then you will understand why we despise and never want CSG in our back yard EVER!

So just do the right thing, BAN CSG and if you do this we know who you are , and you want to keep your tax payer jobs, STOP THIS NOW! and make it water tight legislation for the future of this country, if you care at all!

Better still go to Queensland and see for yourselves the permanent irreversible damage that has been done to Farmers, towns and water and livelihoods. WITH CSG that cannot be fixed plumbed up repaired EVER! Due to CSG, The damage is done forever and ruined their futures, If the infrasture is damaged and the pipes are faulty or corrode over time,(NO concrete proof ) this is known to be irreversible, Then you will know why we don't want this is NSW and mining for CSG no matter how much money they bribe you with, and false promises they made ,just say NO to all CSG mining companies forever, and remember we put you in Parliament we can just as easy take you out.

Until you are directly affected by CSG you have no idea of the long-term damage it can do to someone's livelihood and flow on to the businesses in those towns and cities, let alone the soil, water for thousands of people, animals and flow on affects there too.

WE will all be starved of decent drinking water, unable to live earn an income pay taxes and nowhere to start up again because we would have no money and the banks don't want to assist anyone involved in coal seam Gas in negative impacts, and there is also no insurance available in the world to protect people affected by Coal seam Gas, so don't destroy our futures and contaminate our soils water Rivers

aquifers and livelihoods without the evidence and facts and concrete proof THAT THIS IS A VERY BAD LONG TERM IDEA . ASK THE FARMERS IN QUEENSLAND WHAT THEY HAVE HAD TO ENDURE,NONE OF IT POSITIVE , LOST INCOME, MARRIAGE BREAKDOWN, SUICIDES AND BEEN LOCKED OUT OF THEIR OWN PROPERTIES STOCK UNABLE TO DRINK CLEAN WATER, DEAD STOCK FROM CSG, THAT IS BLOOD ON YOUR HANDS! I DON'T KNOW HOW YOU CAN LIVE WITH THAT!

The droughts floods and inclement weather is natural part of life and the CSG is not ,and we are all been through the worst drought on record and now you want to beat us again with this disgusting contaminants that will burden us forever, and only help you not living with the fear, all because there is money in it for you, well forget that, and do some good for the farmers that won't burden their livelihood and send all the CSG companies packing and make good or try and help the poor farmers in Queensland and other places with compensation if you have billions of dollars to spend and sent those companies away too , in fact make a nationwide policy to Bann CSG in all Australia and then you would do something good instead of wrecking our lives forever. Then we might be able to trust you?????

NO farmers, no food no taxes no one to pay your wages and no regional Australia, is that what you want if so you are all bloody idiots!!! And have put your needs above the rest of the country!

FROM: A FARMER WHO HATES CSG AND THE PEOPLE WHO WANT TO DESTROY OUR LIVELIHOODS AND HAVE A DEMOCRATIC RIGHT TO VOICE MY CONCERNS.
