My reasons for objecting to the Narrabri Gas Project are as follows.

1. The threat to our underground water resources are still our major concern & not enough evidence to disprove this has been presented.
2. That the value of land affected by this industry will be diminished.
3. That over 98% of people N/W NSW do not want to live in a gas field.
4. That the gas project will expand beyond its proposed 350 wells in the future.
5. That the Risk/Reward ratio of this industry does not stack in its favour. The potential to displace & diminish Agricultural industries is too high.

Please continue on back side.
