I am writing to object to the Narrabri Gas Project on the grounds that it may affect the quality of the water from the Artesian Basin. Fracking and the chemicals which are used have the potential to ~~poison~~ poison the water in the basin.

The water which we rely on for our livestock and ~~home~~ domestic use is from the Artesian Basin. Lightning Ridge ~~is~~ Also, Rain on ~~is~~ this Basin.

Please continue on back side.

Our farming business uses the water from the artesian basin for livestock and farming which produces food and fibre. If our water source is compromised ~~that~~ then our business is compromised. Six out of the last ten years we have been fully reliant on artesian water for our livestock, ~~and~~ farming and domestic water uses. Our properties have been watered by the artesian basin for over 100 years.

It is paramount that our water is protected for now and the future generation. The loss of the artesian basin would destroy our family and ~~to~~ our community especially Lightning Ridge which has no other water.
