Dear Sir / Madam,

**RE: NDCA submission for Narrabri Gas Project**

---

Since setting up operations in Narrabri, Santos has been a generous supporter of community organisations and events and is a good corporate community citizen of the local region.

They have provided ongoing support for developing cricket in this area through the Narrabri District Cricket Association (NDCA) by way of both financial and in-kind contributions over the past five years. This has assisted us with hosting our seasonal cricket fixtures competitions as well as helping us to host events and invest in the purchase and upgrade of equipment.

Their contribution has included being the Major Sponsor of the NDCA each season since 2016 and separate sponsorship and in-kind support by way of loaning equipment and allowing staff time to assist with the hosting of carnivals including the NSW Country Colts carnival in 2018 and the Country Championships (Northern Carnival) in 2017.

Further to this Santos was a major contributor of funding towards our upgrade of the wicket roller in 2018 and they have sponsored the Central North Zone for a number of years assisting cricket across the North West, as well as their contribution to the lighting project on Collins Park which has allowed for night cricket to be played and in turn helping cricket thrive.

The NDCA are extremely thankful to Santos for their support and look forward to their future participation in the Narrabri community should the project be approved.

Regards,

Narrabri District Cricket Association
