Silgama.

To wish it may come.

We are the owner of Dielaco's a property on the Corboraugh Highway Silgama. We have a small citrus orchard and a close plantation.

Like everyone in this area, we rely very much on the underground water supply for our existence and drinking water. We are very concerned about the water bi gas project, it is a serious threat to our water supply and the farming in this area.

Yours sincerely M. WENSTEAD
