

"DEL-RIO"
NARRABRI
NSW

4th AUGUST 2020

To whom it may concern,

I Ronauld Mcauslin Budd Ireland, J.P. of "Del-Rio" Narrabri, request a special consideration be given to the future of gas extraction, by the company, 'Santos' in our region. This should not be granted ever.

As I possess a licenced irrigation bore, on a 60acre property, near the centre of Narrabri, Santos's claim that a 850+ bores drilled into the bedrock of the water table can have no guarantees that there will be no leakage holds much trepidation for the future to irrigators.

It puts our future supply of water in doubt and would affect our existence in the region.

YOURS FAITHFULLY

R. B. Ireland J.P.
