Narrabri Gas Project

I am Penelope Kathleen Nalder, aged 73. I have lived in the Narrabri area for the past 44 years. I am a farming landowner in the Narrabri area.

I oppose the Narrabri Gas Project, because of the threat of the irreversible damage to the underground water reserves, and to further damage to our fragile eco system.

Accidents ALWAYS happen. There is NO WAY that Santos or any other CSG mining company can adequately repair or compensate for the environmental damage that this project will have in the Narrabri area.

If the Narrabri Gas Project goes ahead, Santos will unfortunately expand exponentially. By then attempts to halt that expansion will be too late.

How sad that the number of jobs created by Santos has blinded the Narrabri Shire Council and the Narrabri Chamber of Commerce to the enormous benefits of renewable energy.

Our focus must be redirected to creating a renewable energy future, instead of polluting and destroying our natural habitat.

Yours faithfully,

Penelope Nalder
