Dear Planners,

Why allow Santos, or anyone else to exploit our Pilliga Forest, clearing 1000ha & driving through tracks and pipelines. Don't you people understand the place of healthy forests in the climate helping bring rainfall as well as providing for flora and fauna.

Precious Water, essential to life squandered by mining and left contaminated to be disposed of... where?

There are sites of cultural heritage belonging to the Gomeroi People -

We all know Gas is no answer - not a low emitting fuel - the Planet cannot afford the use of any more gas.

Concerned Grandmother

(MRS) Ann Reeve.
