We object most strongly to Santos Narrabri gas project
we will suffer severely if our bore water is contaminated
because if their plan goes ahead.

Uwing to the drought last year the river stopped running
so couldn't get water for the sheep to pump water for the stock & domestic
use, so had to put a bore down (costing the earth) but if Santos plan
had been in place, we wouldn't been here to-day also the
town people only have bore water to use when the rains
don't come, which ^{is} not very often.
