E: [REDACTED]

23 September 2020

Dear Mr James

**Dunmore Lakes Modification 2
Clarification on the Number of Submissions**

I am writing to you to make the Independent Planning Commission aware of a minor discrepancy in the number of submissions described in its assessment report for Dunmore Lakes Modification 2, which was referred to the Commission on 18 September 2020 for determination.

In Section 4.3 of the report, the Department stated that there was a total of 170 submissions received on the application with 149 individual community submissions, including one in support and 148 objecting to the proposed modification.

However, based on further review, the Department can confirm that there was a total of 161 submissions on the application with 140 individual community submissions, including two submissions in support and 138 submissions objecting to the proposed modification.

It would be appreciated if you would place this correction on the Commission's website to ensure this information is available to the community and other stakeholders.

Thank you for your assistance with this matter.

Yours sincerely
