Subject: Opposition to Boral Minnamurra Sand Mine
Date: Wednesday, 14 October 2020 8:40:44 AM

My name is Chris Bingham, I am a resident of Minnamurra and I am submitting my opposition to the proposed Boral Minnamurra Sand Mine. My opposition is based on the points below.

The area to be mined has Endangered ecological communities that will be further threatened.

The realistic potential for a Toxic Bloom that is in the water table to be disturbed.

Requirement of destruction of Bangalay on Sand trees, an already endangered community.

Disturbance of Aboriginal artefacts.

100,000's of tonnes of soil that will need to be transported by local roads and the obvious issues including dust, traffic and noise.

I live here, my children live here and my grandchildren live here. Don't destroy this beautiful, pristine environment which benefits thousands of residents and visitors each year for the profit of a Business.

Regards,

Chris Bingham
