Re: Maxwell Underground Project

Dear Commission

I am writing to register my support for Malabar Resources' Maxwell Underground Project.

I support the Project because the Maxwell Project will generate around 250 jobs during the construction process and 350 long-term jobs during operations.

Malabar has undertaken to provide training for local people to develop the skills to operate an underground mine within the local area.

I also note that Malabar takes mine rehabilitation seriously. The Maxwell Project will mean that the former Drayton Mine will be properly and professionally rehabilitated to return the land to normal rural applications.

Regards
