Re: Maxwell Underground Project

Dear Commission

My name is Wes Mackinnon and I am an engineering consultant working in the coal industry. I have lived in the Hunter region for 50 years.

I am writing to register my support for Malabar Resources' Maxwell Underground Project.

I support the Maxwell Project because it is a positive and common-sense proposal that can co-exist with other industries. Malabar's underground mining proposal will have low dust and noise related impacts on nearby properties. In addition, the Project will generate a significant number of new jobs and provide a much needed boost to the region.

These benefits will make a long-term, positive impact on the local industry and community.

Regards

Wes Mackinnon
