Subject: RE: Shoalhaven Starches Expansion Project MOD 17 - Amended Modification Proposal

Good afternoon Shaun,

Thank you for your time on the phone yesterday to discuss the revised PHA and accompanying letter regarding Modification 17 to the Shoalhaven Starches Expansion Project consent (MP06_0028-MOD-17).

It is understood that the letter prepared by Stephen Richardson of Cowman Stoddart Pty Ltd addresses inconsistencies within the PHA and supporting documentation that were identified by FRNSW following exhibition of the modification; specifically whether the proposal sought consent for additional bulk chemical storage, or relocation of existing storage. It is noted that the proposal is seeking approval for additional bulk chemical storage.

As discussed, FRNSW does not consider the proposed additional bulk chemical storage (caustic soda, hydrochloric acid, and cationic reagent) to present a fire risk given the chemicals are non-flammable and non-combustible, and subsequently do not affect the fire risk profile for the site. As such, FRNSW are satisfied that all agency submissions have been adequately addressed and offer no further comment.

If you have any queries regarding the above please contact the Fire Safety Infrastructure Liaison Unit, referencing FRNSW file number BFS20/1954. Please ensure that all correspondence in relation to this matter is submitted electronically to firesafety@fire.nsw.gov.au.

Regards,
Nathan

Importance: High

Hi Nathan,

I thought I had received a response from Fire and Rescue NSW on the bellow matter but I can not seem to find it in my inbox.

Would you be able to confirm the Fire and Rescue have no further comments on the revised PHA for Shoalhaven Starches MOD 17?

It would be much appreciated if you could get a response back to me urgently.

Regards,

Shaun Williams

Hi Nathan,

The Applicant for Shoalhaven Starches MOD 17 has reviewed Fire and Rescues comments and has provided the attached letter and revised PHA to provide clarity to the queries made.

Could you please review the attached documents and advise if Fire and Rescue are now satisfied along with any recommended conditions of consent.

Regards,

Shaun Williams

Subject: RE: Shoalhaven Starches Expansion Project MOD 17 - Amended Modification Proposal

Dear Shaun,

Notification of Modification
Shoalhaven Starches Expansion Project (MOD 17)

Thank you for your submission of the Statement of Environmental Effects report (the Report, dated 13 December 2019) for the above development to Fire and Rescue NSW (FRNSW) for agency review and comment.

It is understood that the Report has been prepared by Cowman Stoddart Pty Ltd on behalf of Shoalhaven Starches Pty Ltd (the Applicant) to address proposed modifications to Project Approval MP06_0228, including the; relocation of the baghouse for starch dryer no. 5, installation of a service lift adjacent to starch dryer no. 5, elevation of an approved service conduit aboveground to the packing plant, use of woodchips as part of the fuel source in boilers 2 and four 4, and modification of condition 14J(e) of the afore mentioned project approval. An addendum to the Report (the Addendum, dated 19 June 2020) detailing amendments to the modification has also been reviewed as part of this submission.

The following comments and recommendations are provided following a review of relevant parts of the Report and Addendum.

- It is noted that the Preliminary Hazard Analysis (PHA) report (dated 18 June 2020) prepared by Pinnacle Risk Management Pty Ltd has been revised to assess the changes proposed in Modifications 16 and 17. Whilst the PHA concluded that the modifications presented no significant increase in the risk profile of the site, it is unclear if consideration was given to risks associated with the provisions for future bulk chemical storage noted in *Section 2.3 Additional Bulk Chemical Storage* of the Addendum. It is recommended that clarification be provided as to whether the Modifications are proposing additional bulk chemical storage, or relocation of the existing; caustic soda, hydrochloric acid, and cationic reagent storage.

If you have any queries regarding the above please contact the Fire Safety Infrastructure Liaison Unit, referencing FRNSW file number BFS20/1954. Please ensure that all correspondence in relation to this matter is submitted electronically to firesafety@fire.nsw.gov.au.

Regards,
Nathan

Subject: Shoalhaven Starches Expansion Project MOD 17 - Amended Modification Proposal

Good afternoon,

The Applicant for the Shoalhaven Starches Expansion project MOD 17 (MP06_0228 MOD 17) has made revisions to the modification proposal.

The Applicant has provided an addendum to the original Statement of Environmental Effects (SEE) including accompanying revised technical reports to support the modification proposal which can be accessed via the Department's website: <https://www.planningportal.nsw.gov.au/major-projects/project/26586>

The Department requests for your agencies review of the aforementioned documents and provide any comments on the revised modification application by **Thursday 9 July 2020**.

If you have any questions or concerns, please contact Shaun Williams on (02) 8275 1345 or by shaun.williams@planning.nsw.gov.au.
