53 Radnor Rd

Bargo NSW 2576

Dear Sir or Madam

I am writing to object on behalf of my husband and myself to this expansion of the Galmor Coal Mine under parts of Bargo.

Very underhanded to release the 166 page report in the middle of the night just before Christmas.

My husband and I have lived on our blocks in Bargo for over 49 years and have objected to the mine under Bargo when ever the subject has been raised. We have found over the years that the mines owners have not always been honest and above board.

We have seen the damage and heartbreak caused by peoples homes and trees being damaged by subsidence & have heard all the excuses and refouts and have been

Said by brownellon Ambrose Deuyer how  
mines cause no harm and everything will  
subside evenly, that was many years  
ago and we all know that is not true in  
reality it happens

We have addressed first hand the  
water pollution from the mines, disgusting  
we are situated on geological anomalies  
Nepson Fault here, we have Moomba to  
Sydney Gas Pipeline, the main southern  
railway line. It is disgusting that the idea  
of Dimec be even entertaining the idea  
of expanding the damage the mines have  
already caused should be more than enough  
to halt this expansion.

We should have the right to know  
we are safe in Australia, knowing we  
are not going to have our homes damaged or  
destroyed, that we could be blown up,  
that our water ways are free from pollution  
and what about the environment or does

money and profit count more than life itself

Yours sincerely  
Barbara Robert  
M.D.
