Subject: Re: Glebe Island Concrete Batching Plant and Aggregate Handling Facility (SSD 8544) - Additional Information - Correct Links

Dear whom it may concern,

The additional new material does not go far enough to address my key issues of concern which include but are not limited to air quality pollution, noise pollution, environment impacts, traffic impacts, hazards such as contamination. I am particularly concerned how they will effect my children 5 and 6, and that we may be forced to leave Pymont. We have a mortgage on a property directly facing the development. This would be devastating for us, as we have made Pymont our home.

I also don't understand how this fits in to the redevelopment of Pymont, the fish markets, Barangaroo etc. It seems like a massive compromise on these re-developments.

Kind regards,
Andrew Howard
