**New Material Comments on Harbourside Shopping Centre Redevelopment SSD-7874**

The Mirvac's response option does not achieve any of the above benefits.

-The northern podium is still too massive

-it still blocks my views of the water of Cockle Bay

-it still significantly impacts on Pyrmont Bridge

-it does not improve the public domain and will overshadow the foreshore

-the park is now a mass of stairs limiting its accessibility and use. How will mothers with prams navigate these various levels. Pity for people who have disabilities.
