

OBJECTION – Harbourside Development Proposal – MIRVAC

Please try to satisfy the very real objections properly.

The main objection has always been: The height and close proximity of the Northern Podium to the Pyrmont Bridge.

Mirvac has responded to this concern – but not quite enough!

1. Please make the Northern Podium (Guardian Square) RL11.8 (not 12.5) and many more people will be happier and better off.
2. Please reduce height of the adjacent commercial space (to the south of Guardian Square) to RL18. This will greatly relieve long-time owners/residents of 50 Murray Street.
3. Lower the rear area (west) of the Northern Podium where the foot bridge arrives into Guardian Square (annotated in RED on the diagram below) to RL11.8

Thank you for your help.
